

Hatch Medical Brokers Sale of B. Braun Interventional Radiology Assets

Duluth, Georgia – Hatch Medical, L.L.C., a medical device incubator and technology brokerage firm, announced today that it has successfully brokered the sale of B. Braun's peripheral and carotid stent lines, embolic protection technology and metallic embolic platform. The undisclosed purchase price consisted of a cash payment.

"It has been a pleasure to represent B. Braun through this transaction. They have a culture of innovation and these technology platforms clearly demonstrate their leadership in product development", stated Steve Hvozda, Principal at Hatch Medical, LLC.

Mr. Christian Fabre, President of B. Braun Medical S.A.S. added, "We are pleased to have had the expertise and assistance of Hatch Medical to successfully negotiate a suitable transaction that recognizes the potential value of these technologies."

Founded in 2000, Hatch Medical is an incubator and broker of medical device technologies, assisting clients in the sale, license or distribution of valuable medical device assets.
